

Wards 10 Best Engines Ceremony & Networking Event

Hundreds of the world's top powertrain personnel join Wards each January as we honor the winners of our annual Wards 10 Best Engines program, the only such awards in North America. Sponsors enjoy interaction with the engineers and executives making OEM sourcing decisions for powertrain programs. Sponsors tell WardsAuto they make more progress with customers during Wards 10 Best Engines than they make during months of sales calls.

Core Sponsor Benefits:

-  Networking at event
-  Display, logos at event
-  eNewsletter advertising
-  Online advertising

“All of our engine teams closely follow the Wards 10 Best Engines competition because it can ultimately influence our engine designs by better understanding what customers want... Today General Motors is more customer-focused than it’s ever been, and we really appreciate Wards’ contribution to that.”

Dan Nicholson, VP of Global Powertrain, GM
